To our customers

Wallenhorst, 24.03.2020

Statement On RoHS 2015/863/EU

Dear Sir or Madame,

For us, it goes without saying that all legal provisions for the protection of society and the environment are observed in the production, storage and sales of our products.

You only purchase non-chemical products from us. In addition, no substance is released under normal and reasonably foreseeable conditions of use from the products you purchase. Thus, we are not subject to the obligation to create safety data sheets.

We hereby confirm that all products supplied by us comply with the above-mentioned EU regulation.

For articles made of brass, which may contain lead, we refer to the derogation in Annex III, 6c.

In July 2019, the list of substances in Annex II was extended. The four substances were already included in the SVHC candidate list in 2008 and 2010. Due to the complete REACH documentation, we can confirm that our products delivered to you do not exceed the minimum limits specified in the RoHS 2015/863 / EU directive.

All information has been given to the best of our knowledge and belief. They correspond to that current state of the art. This information is not an assurance in the warranty to understand the legal sense.
